Made with premium, food grade silicone, this set offers a durable alternative to traditional plastic and fragile dishware for tots. We've carefully designed each piece for little hands and eating habits in mind. These forms are adapted for baby-led weaning and beyond. The sturdy suction system keeps the bowl and plate firmly stuck to almost any surface. The training cup and spoon help baby to transition from bottle-feeding while protecting their developing teeth.

STATEMENT OF CONFORMITY

As pioneers in eco-design and experts in bamboo since our launch in 2003, we are constantly on the forefront of innovation in design and manufacture of bamboo fibre tableware and home accessories.

Our signature BIOBU® eco-composite is described as a biopolymer, which means it is comprised of about 50% bamboo fibre, a highly renewable material, and 50% non-toxic food-grade A5 melamine binder, which makes it durable and reusable. Our bamboo fibre is responsibly-sourced FSC-certified sawdust which is collected as waste from select bamboo chopstick factories. We manufacture our custom-designed products with an exclusive partner. Our factory is not only BSCI-compliant in social responsibility, but we work together with our factory, never cutting corners, to manufacture the safest and most premium bamboo fibre goods on the market.

Our material is stable and unchanging and poses absolutely no health risk with normal daily use. Our products are tested regularly at the factory, and undergo independent testing in Europe.

All EKOBO products comply to all food safety standards around the world (FDA, LFGB & REACH) and are free of BPA, PVC, Phthalates, Lead, Cadmium and Mercury. They comply with the European regulation (EU) N10/2011 and Regulation (EC) No. 1935/2004 which acknowledges that they are suitable for hot and cold food and liquid.
