

ESSENZA

Spring/Summer 2020

Our story

We are ESSENZA. We want to challenge you to express your own unique style. In our diverse home & living collections you will find an eclectic mix of colours, prints and styles: everything you need to make your home an elegant and personal work of art!

We are constantly travelling, on the lookout for inspiration across many destinations, cultures and traditions, both far away and closer to home. In addition to this, we find nature an inexhaustible source of inspiration. In our own creative studio we love to mix and match all the impressions and ideas we have discovered along the way to form the most desirably eclectic & abundant collection per season.

For more than 30 years we have been designing uniquely expressive home & living collections, creating stylish interiors with a unique twist. From our studio near Utrecht we have spread our wings and on our way conquering the world, we are now active in almost 40 countries.

At ESSENZA we believe in buying less, but better. High-quality, sustainable products are our answer to the contemporary disposable culture. We design and manufacture our collections with love, care and attention for people and for the environment.

Elegant, daring and expressive. Those would be the words I'd choose to describe ESSENZA as a person. We keep this elegant woman in the back of our minds in everything we do; whether we're designing a collection, hunt for new photography locations or write our texts. In this way, we are continually building towards a strong ESSENZA brand with a clear identity and a unique, recognizable style: ultra-feminine, a little mysterious and always with sophisticated details.

In your hands you are holding our new Spring/Summer 2020 catalogue and it's more captivating than I could have ever imagined! This collection is stunningly beautiful, more extensive than ever before and totally ESSENZA through and through. The photography links with the collection in perfect harmony and this season it seems to be brought to another level yet again. We chose the unique location of Buitenplaats Sparrendaal (read more on page xx) as the setting for our campaign shoot: this grand and majestic mansion ignites our photography and stories to be evenly magnificent! The impressive 10 meter long dresses were custom made for us and are featuring our newest designs. The rich floral prints, lace bodies and tulle skirts create an ultra-feminine, elegant look while the impressive flower styling adds the ultimate summery ESSENZA touch.

In this location, our three campaign designs from this season (Fleur Grey, Rosalee Mustard and Filou Caramel) were exuberantly styled and photographed. Each of them is linked to one of ESSENZA's core values and you'll read more about those on the introduction page of each theme. The remaining designs were placed in a more neutral setting. The decorative frames on the walls link back to the classical interior of Buitenplaats Sparrendaal while they don't overpower the toned down setting. Your eye is drawn straight to the designs.

At ESSENZA we stand for buying less, but better. We are therefore continually working to make our collections more sustainable and to increase the transparency of our production chain. From this season onwards, all our premium duvet covers and bath textiles are manufactured from GOTS certified cotton. This guarantees that the cotton has been organically grown while also ensuring that production takes place in an environmentally and socially responsible manner. Another step towards a transparent and future proof brand.

We are looking forward to this coming summer and we would love to hear your feedback on this new collection and the changes we've made regarding sustainability!

With elegant regards,

Floor Smits

This spring, ESSENZA will take you to a magical dream world where flowers and fabrics blend together in a graceful dance. Inspired by nature, Italian high fashion and the old Dutch masters: this collection gives a chic and dreamy touch to any interior. Let yourself be seduced by the elegant prints, soft pastel colours and earthy tones that let nature shine like never before. This is la vie en rose!

Old Masters, New Inspiration

ESSENZA is endlessly inspired by the rich floral still life paintings of the old Dutch masters. Our love for these paintings comes to fruition in the new design Rosalee: a fresh print with elegant, white flowers, each of which can be admired in the Rijksmuseum in Amsterdam. This spring not only are the individual flowers central to the designs, but also the beautiful bouquets. Or, in the case of the Annelinde design, a spectacular field of flowers that you can look at for hours and always find something new.

Italian High Fashion

The flamboyant high fashion from Italy fascinates us this season. The spectacular, richly decorated designs from the catwalk in Milan are reminiscent of the Italian Renaissance, during which the most beautiful ornamental designs adorned the buildings. ESSENZA transforms these classic influences into elegant and contemporary prints for the home. The ornamental patterns and luxurious details adorn the Grazie and Georgina prints giving this classic inspiration a new twist. Old meets New.

Exciting Combinations

For a modern twist, ESSENZA combines exuberant designs with stylish zigzag patterns and graphic checks and stripes. The seductive Cleo snake print adds a touch of glamour to the collection. Mix and match like a true artist to create exciting and daring combinations. The colours look like they have come straight from the forest this season, with beautiful shades of green, yellow and brown. We have combined them with dreamy pastels like ice blue, lilac and soft pink for a sophisticated summer look. Gold details give the collection an extra luxurious touch.

Dream World in Classic Decor

This collection has been spectacularly presented this spring. With an abundance of flowers, ESSENZA creates a magical dream world in which colours appear even more intense and patterns come to life. The ideal interior for this beauty? A classic look with beautiful mouldings and impressive decor that would not be out of place in the Italian Renaissance. A prime example of beauty and femininity, in every way.

Sparrendaal: a magical photoshoot location

We love telling stories at ESSENZA. Not only through our designs, but also through translating our concepts into beautiful, eye-catching photography! For the campaign shoot of our newest collection we chose the unique location of 'Buitenplaats Sparrendaal' with good reason. This house is filled to the brim with history, art and beauty; a perfect match!

The history of Sparrendaal

In the mid-18th century, the mayor of Utrecht wanted to avoid the stench of the city during the summer months. So he had a country residence built in Driebergen and his daughter was given the honour of laying the first stone. Not long after, the breathtakingly beautiful Sparrendaal (at the time called 'Sper en Dal') was born! The mayor loved to receive his guests in style and chose the very elegant (and at the time modern) Rococo or 'Louis XV' style for the house.

The splendour of times past

Once inside, a magical dream world unfolds before your eyes. The fully restored interior is packed with exuberant decorations. The walls are adorned with paintings of enchanting landscape scenes, elegant decorative frames and unique painted wallpaper from Delft. You'll be able to see quite a few of these elements in our photos. Like the wall painting of an idyllic landscape that gives the illusion to be standing right in the middle of nature. The painters' style seems to suggest to be originated from the North of the Netherlands, but the painters name remains unknown to date.

Everything in this house speaks of the splendour of times past. From gold-plated Rocaille frames to the opulent 'Louis XV' style ornaments that adorn the ceilings of the rooms. It's no surprise to us that even Napoleon himself paid a visit to this beautiful mansion!

From inspiration to photography

At ESSENZA we are continually inspired by history, art and nature. There's three different ways in which you can see this translated into our campaign shoot. Firstly, in the skillful wall paintings in the background. Secondly, in the ornate flower arrangements that reminisce of still lifes created by the Old Masters. Finally, in the translation of these influences into our designs. Here they all come together in perfect harmony.

This season, transform your home into an elegant retreat with our L'Océan theme. Crisp shades of blue like ice blue, royal blue and lavender bring peace and relaxation into your home. Yet in a surprising, powerful way in true ESSENZA style of course! Combine these blue shades with lilac and cool greys for the ultimate sophisticated look.

L'Océan

Elegant yet powerful

This season, transform your home into an elegant retreat with our L'Océan theme. Crisp shades of blue like ice blue, royal blue and lavender bring peace and relaxation into your home. Yet in a surprising, powerful way in true ESSENZA style of course! Combine these blue shades with lilac and cool greys for the ultimate sophisticated look.

A daring collection

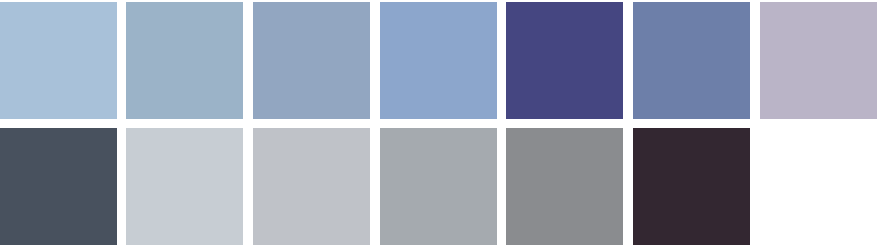

All our themes are linked to one of ESSENZA's core values. This theme is quite clearly linked to value 'daring'. The use of colour in L'Océan with its crisp blue, charming lilac and various greys is daring en refreshing and it challenges you to shake things up this spring. A new era is here!

A bold bouquet

The floral art in this theme it both daring and bold as well. The beautiful hydrangeas have been custom coloured for us in a deep, bright blue shade to create an exciting and surprising effect. The pale pink roses and elegant white feathers add a delicate touch while the deep red dahlias bring a little fire. The unusual artichoke flower adds a hint of lilac to the colour scheme. Did you spot the carnivorous pitcher plant in the portrait? It's boldly draped over the woman's shoulder.

Colour card: L'Océan

Crisp blues, soft lilacs and various greys: it's the perfect colour palette for the transition from winter into spring.

Flamboyant elegance

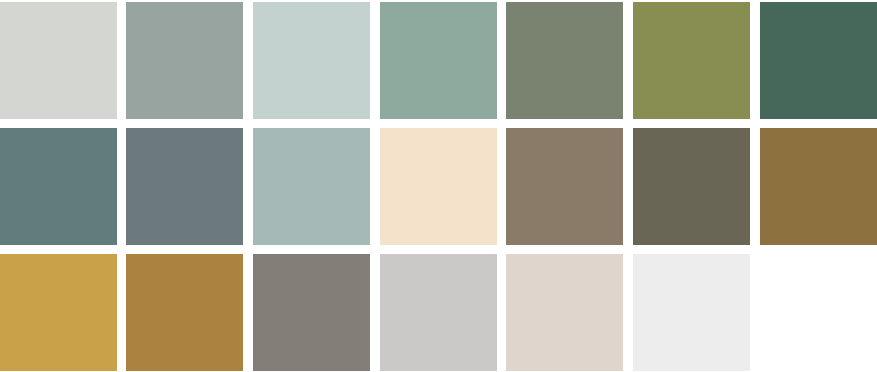

All our themes are linked to one of ESSENZA's core values and in La Flamboyance we boldly show our value 'elegance'. This collection is all about femininity with its rich, ornate patterns and luxurious animal & flower prints that give your interior a delicate touch. This value isn't expressed through our designs only; the photography, styling and floral art are all breathing elegance! Did you spot those impressive tulle skirts and lace bodies on the models? They're both flamboyant and elegant!

Dazzling whites

By artistically combining gorgeous white flowers, crisp green leaves and branches full of yellow berries we created a balanced and elegant floral art. Some of the flowers in our Rosalee campaign design come to live in the floral styling, like the graceful lily and the charming freesia. The wild hydrangea and unusual artichoke hearts deliver a strong contrast to create the perfect balance.

100% cotton satin

Go back to nature with ESSENZA! Earthy tones grasped from nature were the inspiration for this soft cotton satin Edith duvet cover set. In wide and narrow stripes, beautiful shades of yellow, brown, grey and white come together to create a fresh, clean look for the bedroom. The reverse of the duvet cover is a mustard yellow colour.

Le Jardin

Flowing from soft nudes and luxurious browns to feminine pinks and trendy lilac - Le Jardin's colour palette is like a dreamy bouquet picked from the most stunning garden. It's designs are full of gorgeous bouquets and dazzling flower fields that will burst your interior straight into full bloom! Welcome to ESSENZA's summer!

Le Jardin

A dreamy & colourful bouquet

Flowing from soft nudes and luxurious browns to feminine pinks and trendy lilac - Le Jardin's colour palette is like a dreamy bouquet picked from the most stunning garden. It's designs are full of gorgeous bouquets and dazzling flower fields that will burst your interior straight into full bloom! Welcome to ESSENZA's summer!

Distinct and expressive

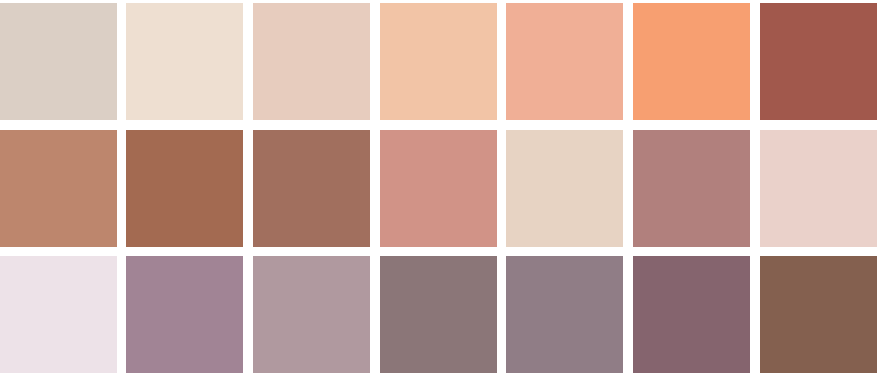

Le Jardin embraces the newest homestyling trends with its terracotta and browns, many of which we'll see back in autumn. However, in true ESSENZA fashion we added some exciting, contrasting colours to the mix! Soft summery hues of lilac, blush and dusty rose brighten up the palette and bring striking combinations into your home. Even the photography, styling and designs in this theme are striking, just like the big flowers on the Filou design. We linked our core value 'expressive' to this collection. It's time to express yourself!

Gloriosa, dahlias and gladiolus

The flowers in the photos are as expressive as the collection itself! They have been carefully selected to suit the colour palette and designs within this theme. When you look closer, you notice the fragile but striking pink flowers of the gloriosa, romantic roses, bright terracotta coloured dahlias and gladiolus standing out. It's an expressive summer bouquet against a soft, subtle background of pampas grass.

Colour card: Le Jardin

Le Jardin embraces the latest trends with its shades of terracotta and browns. Soft summery hues of lilac, blush and dusty rose soften and brighten up the palette and combine together into striking combinations.

Filou caramel

100% cotton satin

Is there a colour more delicious than caramel? This soft cotton satin duvet cover set gives all the space to this trendy brown tone and to an exuberant sea of flowers. For these rich flowers in pronounced colours ESSENZA was inspired by the paintings of the Dutch Masters - and it shows! The reverse of the chic duvet cover is caramel coloured with a subtle graphic pattern.

PREMIUM

Grazie agave

La vita è bella! This flamboyant duvet cover set is designed for anyone who wants to add some flair to the bedroom. Against a grey-blue background with subtle snake pattern, richly decorated patterns stand out in gold and brown, reminiscent of the Renaissance period. ESSENZA found inspiration for this on the catwalks in Milan, where they certainly have a love for Italian drama. Turn the duvet cover over for a quieter look.

- Lovely details:**
- 100% cotton satin
 - GOTS certified organic cotton
 - 300TC for extra comfort
 - packed in stylish packaging (see p. 231)

PREMIUM

Malou soft grey

Immerse yourself in luxury under this Malou duvet cover set in gorgeous light grey. The fresh tone gives a luxurious, elegant look. However it is the gold-coloured embroidered flowers that really give the duvet cover its special chic twist. The fabric has also been upgraded: it is made of an extra high quality 300TC cotton satin. This means: extra shine, softness and flexibility. The reverse of the duvet cover is light grey.

- Lovely details:**
- 100% cotton satin
 - GOTS certified organic cotton
 - 300TC for extra comfort
 - gold embroidery
 - packed in stylish packaging (see p. 231)

PREMIUM

Felicia loden green

Dreams come true and fairy tales exist on this duvet cover set. On this magical picture the purple, yellow and orange flowers seem to emerge from the trees, but it is the green shades that really steal the show. The beautiful Italian landscape in the background is inspired by a painting by Hendrik Voogd. Reverse the duvet cover for a solid green tone.

- Lovely details:**
- 100% cotton satin
 - GOTS certified organic cotton
 - 300TC for extra comfort
 - packed in stylish packaging (see p. 231)

Pouffes

This season we expanded our ESSENZA collection with four new pouffes. Choose from rich decorative patterns, a dreamy landscape or delicate florals. The pouffes are upholstered in soft velvet for a luxurious finish. The gold coloured base adds a contemporary touch to the pouffe!

Grazie agave

Bring a touch of the flair to your interior with this flamboyant pouffe from ESSENZA in enchanting agave colour. Inspiration for the luxurious patterns in gold and brown was found on the catwalks of Milan, where they have a love for Italian dramatics. The pouffe is made from velvet and feels wonderfully soft.

Lovely details:
· polyester velvet
· gold metal foot

Dimensions: Height 43 cm, diameter 40 cm.

Felicia loden green

This pouffe takes you to another world. In a fairy-like landscape there are large trees with purple, yellow and orange flowers sprouting from them. However, it is the enchanting shades of green that really steal the show. The pouffe is made from velvet and feels wonderfully soft.

Lovely details:
· polyester velvet
· gold metal foot

Dimensions: Height 43 cm, diameter 40 cm.

Fleur grey

Just for the show or to relax your legs: This pouffe from ESSENZA is a must-have! It is made from wonderfully soft velvet and has a spectacular floral print. It is clear that ESSENZA looked to the Dutch Masters for inspiration. The grey tone looks stylish in every bedroom or living room.

Airen moss

Toucan? Check! Butterflies? Check! Flowers? Check! On this delightful velvet footstool you can see all the wonders from nature. The moss green background - one of the trend colours of the moment - is equally enchanting. What's not to love? The solid foot of the pouffe is made from gold-coloured metal and finishes the footstool perfectly.

Lovely details:
· polyester velvet
· gold metal foot

Dimensions: Height 43 cm, diameter 40 cm.

Vivienne ochre

Meet Vivienne! This stylish footstool stands out due to the ochre tone: not by chance is it one of the trend colours of the moment. The black flowers with which it is lavishly decorated give it the ultimate romantic look. Bring some romance into your interior! The solid foot of the pouffe is made from gold-coloured metal and finishes the footstool perfectly.

Bath Textiles

Luxurious bathing has become a true art at ESSENZA and every season we expand our collection of bath textiles. This spring we are introducing two stunning lines made from organic GOTS certified cotton: 'Rosalee' in printed velvet and 'Malou' with its jacquard woven floral design. GOTS certification guarantees that the cotton has been organically grown and that the article has been manufactured in an environmentally and socially responsible manner. Both gentle on your skin and gentle on our planet. Our Connect Organic toweling will be made from GOTS certified cotton from now on too. A sustainable choice!

Fitted sheets

The perfect fitted sheets are just as important as the duvet cover! And because everyone has different preferences, our fitted sheets come in four different materials: satin, premium percale, premium jersey and mako jersey. In the overviews that follows, you can read more about these materials and see the available colours and sizes.

Satin

(Fitted) sheets 100% cotton satin 220TC

The Satin program from ESSENZA is made from the finest 220TC brushed cotton satin, so it feels soft and comfortable on the skin. The special weave gives this cotton satin a luxurious appearance and a light shine. The fabric is very easy to maintain, weighs 130 gr/m2 and feels light and flexible.

Size chart

What size of fitted sheet and duvet cover do you need? This table lets you see the common sizes of the fitted sheets and duvet covers for every bed or mattress size. Please note that these are the most logical sizes, but it can of course be that someone has a relatively narrow or wide duvet on their bed. Therefore, always refer to the size of the duvet. If the customer does not know this then ask to which extent the duvet drapes over the sides of the bed. From this you should be able to deduce what size of duvet cover the customer requires.

All our duvet covers have an extra-long length of 260 cm, this includes a tuck-in strip of 40 cm. This extra-long length means they are suitable for almost every kind of duvet and mattress and they can even be used for a box spring with extra thick mattress.

All about the fabrics

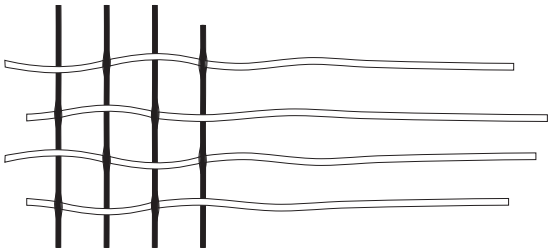

All our duvet covers are made from cotton - and for a good reason. This natural material is perfect for sleeping both on and underneath. The fabric is soft and supple, breathes well and is moisture-absorbent. Moreover, cotton is strong and durable, so you can enjoy your bedding for years to come.

The way the cotton is woven varies according to quality. Cotton renforc  and percale are woven differently than cotton satin. Two different sets of yarns or threads are crossed over each other to create a weave. The vertical thread is the 'warp' and the horizontal thread that is woven through is the 'weft'. The way in which the threads cross each other determines the weave and therefore the quality of the fabric. Below we explain the most commonly used weaves (flat weave and satin weave) and we explain more about our different fabrics.

Flat weave

The flat weave is the simplest weave and is used for fabrics such as cotton renforc , percale and cotton flannel. With a flat weave, the horizontal thread always goes once over and then once under the vertical thread.

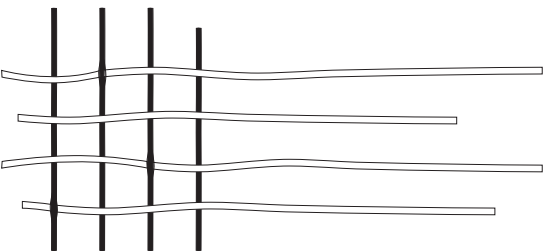

Cotton renforc 
Renforc  comes from the French word for "strengthen". Cotton renforc  means "reinforced and strengthened cotton".

Cotton percale
The difference between cotton renforc  and cotton percale is the thread count, i.e. the number of threads that are used. Percale has a higher thread count and is made with finer yarn so, it therefore feels softer, smoother and more comfortable.

Cotton flannel
The creating of cotton flannel occurs after the weaving process. The fabric is gently roughened, making it feel soft, woolly and wonderfully thick. Ideal for the winter!

Satin weave

The satin weave is different from the flat weave because the horizontal thread passes at least once under and 4 times over the vertical thread. This creates the shiny and soft feeling of cotton satin.

Cotton satin
Satin says nothing about the material, but instead tells us about the weave. Cotton satin is made from 100% natural cotton and therefore has all the wonderful properties of cotton: it breathes well and is moisture-absorbent. Our favourite fabric for on the bed!

300TC cotton satin
With our cotton satin duvet covers, the thread count is usually between 200 and 220. With the extra high quality of 300 TC, the fabric is woven with a higher thread density of 300 threads per inch, which ensures even more shine, softness and flexibility.

Jacquard
Jacquard is a weaving technique that allows us to weave the most intricate patterns into a fabric. The deliberate skipping of specific warp threads creates beautiful woven designs with a light and dark contrast. This is clearly visible when you move the fabric. The fabric has a light shine.

Cotton jersey

Jersey fabrics are not woven but knitted. The quality is expressed in weight instead of thread count. Because jersey is knitted, it has a light stretch that feels very comfortable. Jersey is slightly thicker than cotton percale or satin, which makes it perfect for autumn!

Sustainability

At ESSENZA we work and produce with the utmost care and concern for people, the environment and our society. We are constantly working to make our development and production process more sustainable and to take our social responsibility across all links in the chain. Sustainability must become a core concept throughout our entire production chain. That is a long process, but we are moving in the right direction. Towards a sustainable future!

Joining forces

To further sustain the entire textile industry we will need to join forces and efforts with other companies and institutions. Therefore we signed the Dutch Agreement on Sustainable Garment and Textile on July 4, 2016. This covenant brings us together with more than 90 partners, making it easier to tackle the problems in the textile industry. The covenant includes the Dutch government, unions, industry partners and social organisations such as Unicef and Solidaridad.

Textiles that make you feel good

All of our products are made for your comfort. We therefore believe it is especially important that our products feel soft against the skin and are free of harmful substances. All our fabrics are Oeko-Tex certified or meet the REACH (Registration, Evaluation and Authorisation of Chemicals) requirements. The Oeko-Tex and REACH systems ensure that the tested and certified textiles are free from harmful substances that pose a risk to health.

Organic cotton

From 2020 onwards we'll be manufacturing a big part of our collection from GOTS certified organic cotton. The GOTS (Global Organic Textile Standard) certificate guarantees the use of organic cotton, while also ensuring it has been environmentally & socially responsibly produced. That gives us peace of mind!

GOTS sets requirements for factories concerning the use of harmful chemicals and the consumption of water and energy. GOTS also sets criteria for working conditions during production. These criteria are based on the standards of the International Labour Organisation, such as the right to trade union freedom, fair wages and the right to safe and healthy working conditions. Compliance with the GOTS requirements is checked by independent, accredited organisations.

GOTS packaging

All our GOTS cotton products (Premium duvets covers and all bath textiles with the exception of the Fleur line) feature the GOTS logo on the packaging and the label, along with an explanation of what that logo actually means. The GOTS certified duvet covers will be presented in a stylish yet sustainable packaging made from FSC® certified cardboard. By pulling a little tab, the duvet cover will easily slide out of the box. This allows the customer to touch and feel the fabric while we add yet another experience: the ESSENZA brand story appears the moment the duvet cover slides out! We share more information about organic cotton and GOTS on the reverse side of the packaging.

Sweet dreams

Our mission is to allow everyone to sleep well. Not just the consumer, with the help of our wonderfully soft bedding and beautiful pyjamas, but also the people who work in our production chain. Sleeping well is only really possible if we produce in a sustainable way with consideration for people and the environment. We therefore work hard to create a fair and sustainable future.
