

# Our story

We are ESSENZA. We want to challenge you to express your own unique style. In our diverse home & living collections you will find an eclectic mix of colours, prints and styles: everything you need to make your home an elegant and personal work of art!

We are constantly travelling, on the lookout for inspiration across many destinations, cultures and traditions, both far away and closer to home. In addition to this, we find nature an in exhaustible source of inspiration. In our own creative studio we love to mix and match all the impressions and ideas we have discovered along the way to form the most desirably eclectic & abundant collection per season.

For more than 30 years we have been designing uniquely expressive home & living collections, creating stylish interiors with a unique twist. From our studio near Utrecht we have spread our wings and on our way conquering the world, we are now active in almost 40 countries.

At ESSENZA we believe in buying less, but better. High-quality, sustainable products are our answer to the contemporary disposable culture. We design and manufacture our collections with love, care and attention for people and for the environment.

According to the trend-watchers, the foundations for 2021 are peace, quiet and balance. We came to a standstill last year and this has helped us realise that we need to take a step back. With quiet in mind, one looks for acoustic comfort in the interior.

We see more and more natural materials and organic shapes in the interior. People want to bring nature in using plants, colours and flowers. The need for green is great, not only in terms of colour and nature, but also the desire for sustainability. In addition, green has the property of combating despair with optimism and happiness. Something we could use in this day and age.

This was the starting point for the development of our new collection. In the first theme we styled photography with a huge variety of greenery and plants. In the second theme, colour is central: we use warm tones here for a sultry summer. While Un Été Passionné feels very close due to the use of colour, the other two themes offer light and space. For the main print in the third theme (Scarlett), I went with our house florist to the flower auction to find the perfect flowers for ESSENZA. We photographed them up close and used these photos in our latest designs. On page 10 we tell you more about the making of. An unforgettable experience!

This spring's collection reads like a romantic love letter. We declare love to ourselves, to our loved ones and to nature. This is an alienating time and it is even more important that we are there for each other, even if it may not be physically. Do something small for someone else, it sounds so simple and it actually is. Deliver a homemade cake to the neighbours on a rainy day or collect shopping for a sick friend. I learnt this at home. In my student days, my grandmother would send me a card every week with something delicious. It was always a surprise to look forward to!!

To help you with this, you will find a set of luxury postcards with our most beautiful floral patterns. By giving flowers you show that you are thinking of someone, and for them you create a little moment of happiness. Send them to your loved ones and surprise them with flower mail. Let's be extra kind to each other this period, a small gesture in the form of a card can really mean a lot. Spread the love with flowers!

Best wishes

### A Special Mix of Designs with their Own Story

ESSENZA's unwavering love for prints and colours makes this collection truly special and unique. This season we see a beautiful mix of designs, each with their own story and origin. From classically drawn floral opulence to daring photographs of flowers (read more about this on page 10) and from nostalgic Toile de Jouy to vintage patterns from an eighteenth-century weaver. In the hands of ESSENZA they all got a fresh and modern twist. The collection brings air and softness through the addition of elegant singular colours and subtle tone-on-tone designs.

#### From Soft Green to Fresh Blue and Sultry Terra Tones

Green is and remains an important colour in ESSENZA's collection. Not only because of the need for the connection with nature, but also due to the growing desire for sustainability. The bright shades of blue in the collection reflect the many shades of water and air in nature and provide a fresh touch. Neutral tones like almond and vanilla let you focus on what really matters: yourself and nature. With warm terra tones, soft pink and lilac shades, ESSENZA gives the collection a romantic and sultry touch.

Let yourself be swept away by A Love Letter to Nature, a collection that will give you the same gentle and soothing feeling as a wander through nature and with which you can turn your home into a place of total relaxation.

### THE MAKING OF

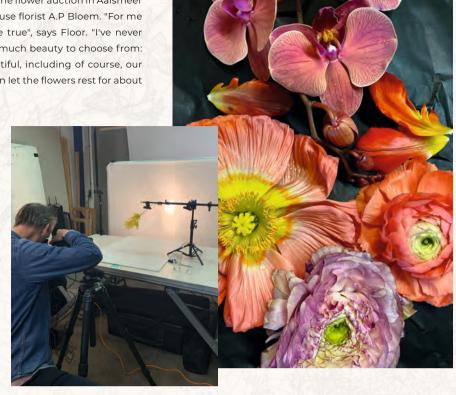

From flower auction to duvet cover: this is how we created our own unique floral designs.

Do you still remember them, the very first digitally printed floral patterns from ESSENZA? These highly detailed photo prints were super innovative at the time and popular as they were, they made our brand. All the more reason to pay tribute to this special heritage with the reintroduction of the digital photo flower! In a unique, modern way, with carefully selected and photographed flowers. Floor Smits, Head of Brands, would like to take you through the process: from the famous flower auction in Aalsmeer to the printed duvet cover.

On a fresh spring day in March 2020 Floor visited the flower auction in Aalsmeer together with our concept creator Manon and house florist A.P Bloem. "For me as a big lover of flowers, this was a dream come true", says Floor. "I've never seen so many flowers in one place! There was so much beauty to choose from: tulips, poppies, roses ... We chose the most beautiful, including of course, our favourites: the French tulip and the peony. We then let the flowers rest for about a week so that they had time to bloom perfectly."

Then it was time to photograph them! Photographer Alexander van Berge set up the studio to be able to capture the flowers from all angles and right down to the smallest details. Alexander Posthuma from A.P Bloem performed his magic on the flowers. He folded the leaves open beautifully in such a way that the flower retained their natural position. "We wanted to show the flowers in a realistic way and not look too contrived", explains Floor. We also visualised the transience of the flower: from the bud until the flower wilted.

Our designers, of course, couldn't wait to get started with the new floral images and soon created the most beautiful designs. Floor: "It took a bit of searching to find the right colour schemes and proportions, but then we created a wonderful collection." You can see the photographed flowers in different ways: large and inflated, in collage form and in combination with illustrated flowers and painted flowers inspired by the Dutch

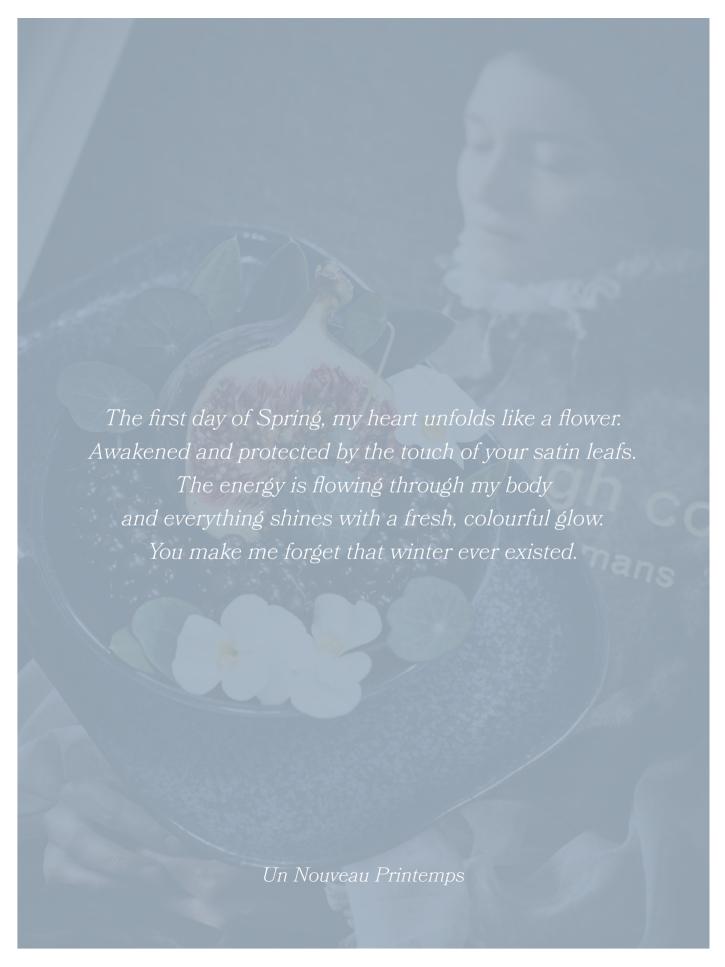

Masters. "This last form especially is really unique", says Floor. We use illustrations and paintings from our artistic past and combine them with modern, photographed flowers. A wonderful interplay of heritage and craft!"

In the new season, ESSENZA immerses themselves in the most beautiful and elegant plants. They give us oxygen and strength for a fresh start and offer the security we so desire in times when physical contact is a luxury. A cheerful and bright colour palette of fresh blues and soft greens fits perfectly with this and brings harmony, peace

and light, which is exactly what we need in these alienating and uncertain times. The addition of the olive colour gives the collection just that little bit of spice and in combination with the ice blue creates a rich, beautiful and thoughtful effect.

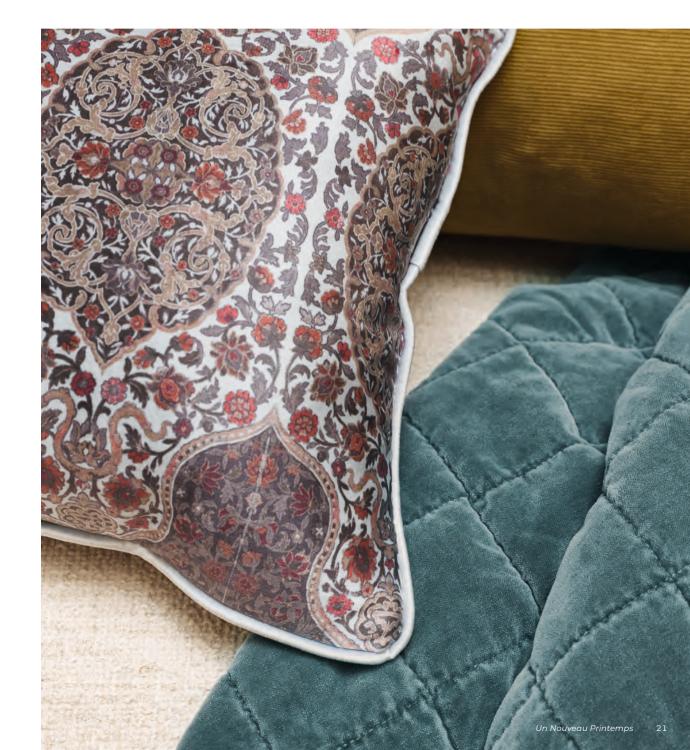

1. Minte olive duvet cover set - 2. Dailah iceblue neckroll - 3. Aurelie iceblue cushion - 4. Naina lavender blue cushion

<sup>5.</sup> Julia denim cushion - 6. Giulia iceblue cushion - 7. Grazie iceblue carpet

This duvet cover from ESSENZA is the best of the best! It is made from an extra high quality cotton satin (300 TC) and therefore lasts a very long time. The fabric is soft and smooth with a light shine and is finished with a chic double stitched seam. But the show is really stolen by the spectacular, original colour: that of olives! A colour that gives every bedroom a trendy update.

## Famke moonlight blue

100% Cotton satin

Tropical birds and picturesque flowers are caught in this new design from ESSENZA! On a blue background with the poetic name Moonlight Blue, the most beautiful flowers stand out in striking colours. But they are not just pretty flowers: ESSENZA was inspired by exciting flowers with a 'whimsical' shape from the still life paintings of the Golden Age. In the background you can see beautiful silhouettes of flowers. The Famke duvet cover is made from cotton satin: a soft and smooth fabric with a light shine.

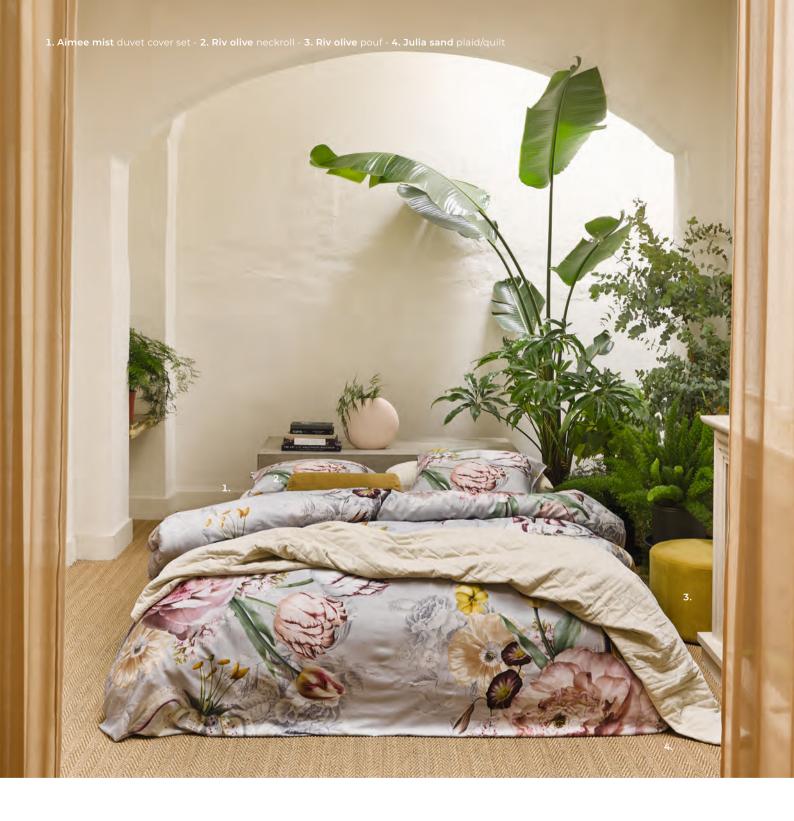

## Aurelie iceblue

100% Cotton satin

A beautiful bedtime story: the gorgeous design on this Aurelie duvet cover is inspired by the eighteenth-century Toile de Jouy. These fabrics were printed by a textile printer near Versailles with romantic scenes of country life, historical events or Biblical representations. And this stunning print is back with a modern and unique twist: ESSENZA opted for patterns of flowers and elegant illustrations of trees. In combination with the modern ice blue tone, the print is now more beautiful than ever. The cotton satin fabric has a light shine and feels soft and smooth. The reverse of the duvet cover also has a trendy ice blue tone.

## Aimee mist

100% Cotton satin

Be enchanted by this magical Aimee duvet cover from ESSENZA. On a fairy-tale, 'misty' shade of grey, the most beautiful flowers can be seen: from large and exuberant white to pink and subtle yellow. On the reverse you can see gorgeous tone on tone flowers. The duvet cover is not only beautiful, but also feels smooth, soft and has a light shine due to the cotton satin fabric.

## Annabel basil

On this special shade of green, the most beautiful flowers can be seen in tone on tone green along with XL flowers in white and pink. The flowers are drawn, painted and photographed: an ode to all three crafts! The duvet cover is made from cotton satin and this means sleeping under a smooth and soft fabric with a light shine. Together with the delft blue shade and the original design it is completely on-trend! The fabric is as fresh as the print of the duvet cover: cotton percale which feels lovely and cool! The reverse of the duvet cover is white with blue polka dots.

# Bowie silver

The gorgeous shades of blue on this pouffe are reminiscent of the many colours that the sky adopt in one day. The story behind the design is also beautiful: it was conceived in the eighteenth century by a weaving mill in northern France for a table runner! We added the print to a pouffe, but with extra vivid patterns and in that special blue tone.

## Size chart

What size of fitted sheet and duvet cover do you need? This table lets you see the common sizes of the fitted sheets and duvet covers for every bed or mattress size. Please note that these are the most logical sizes, but it can of course be that someone has a relatively narrow or wide duvet on their bed. Therefore, always refer to the size of the duvet. If the customer does not know this then ask to which extent the duvet drapes over the sides of the bed. From this you should be able to deduce what size of duvet cover the customer requires.

All our duvet covers have an extra-long length of 260 cm, this includes a tuck-in strip of 40 cm. This extra-long length means they are suitable for almost every kind of duvet and mattress and they can even be used for a box spring with extra thick mattress.

## All about the fabrics

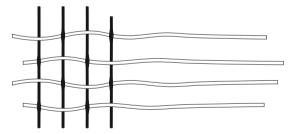

Most of our duvet covers are made from cotton - and for a good reason. This natural material is perfect for sleeping both on and underneath. The fabric is soft and supple, breathes well and is moisture-absorbent. Moreover, cotton is strong and durable, so you can enjoy your bedding for years to come.

The way the cotton is woven varies according to quality. Cotton renforcé and percale are woven differently than cotton satin. Two different sets of yarns or threads are crossed over each other to create a weave. The vertical thread is the 'warp' and the horizontal thread that is woven through is the 'weft'. The way in which the threads cross each other determines the weave and therefore the quality of the fabric. For our duvet covers we use plain weave and satin weave.

#### **FLAT WEAVE**

The flat weave is the simplest weave and is used for fabrics such as cotton renforcé, percale and cotton flannel. With a flat weave, the horizontal thread always goes once over and then once under the vertical thread.

#### Cotton Renforcé

Renforcé comes from the French word for "strengthen". Cotton renforcé means "reinforced and strengthened cotton".

#### Cotton Percale

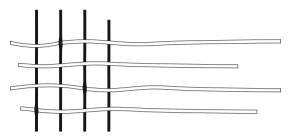

Het verschil tussen cotton renforcé en perkal is het aantal draden (de thread count) dat gebruikt wordt. Perkal heeft een hogere thread count en fijnere garen en voelt daardoor zachter, gladder en prettiger aan.

#### Cotton Flannel

With cotton flannel, the woven fabric is gently roughened, making it feel soft, woolly and wonderfully thick. Ideal for the winter!

#### SATIN WEAVE

The satin weave is different from the flat weave because the horizontal thread passes at least once under and 4 times over the vertical thread. This creates the shiny and soft feeling of cotton satin.

#### Cotton Satin

Satin says nothing about the material, but instead tells us about the weave. Cotton satin is made from 100% natural cotton and therefore has all the wonderful properties of cotton: it breathes well and is moisture-absorbent. Our favourite fabric for bedding! The thread count is usually between 200 and 220. Our premium duvet covers have an extra high quality of 300 TC. The fabric is woven with 300 threads per inch, which ensures even more shine, softness and suppleness.

#### Cotton Jersey

Jersey fabrics are not woven but knitted. The quality is expressed in weight instead of thread count. Because jersey is knitted, it has a light stretch that feels very comfortable. Jersey is slightly thicker than cotton percale or satin, which makes it perfect for the autumn season.

#### **Organic Cotton**

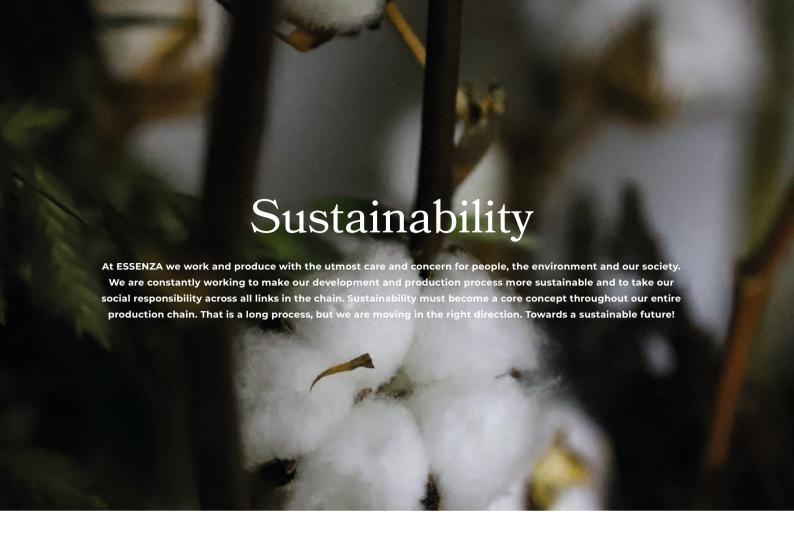

An increasing part of our collection is made from organic cotton. We opted here for GOTS certified cotton. The international GOTS (Global Organic Textile Standard) certificate doesn't only guarantee that the cotton has been organically grown, but also that manufacturing takes place in an environmentally and socially responsible manner. We all get a better night's sleep out of that! Read more about GOTS on page 212.

### Bamboo Viscose

New in the ESSENZA collection is the fabric bamboo viscose. Bamboo particles are processed into a fine textile fibre by means of a viscose production process. Bamboo fabric feels very soft and can perfectly regulate heat and absorb moisture. It is therefore lovely and cool in the summer and warm in the winter. Bamboo is the fastest growing plant in the world and does not require manure, pesticide or other chemicals to grow, unlike cotton.

#### Jacquard

Jacquard is a weaving technique that allows us to weave the most intricate patterns into a fabric. The deliberate skipping of specific warp threads creates beautiful woven designs with a light and dark contrast. This is clearly visible when you move the fabric. Jacquard can be applied to both cotton satin and bamboo viscose.

#### Joining forces

To further sustain the entire textile industry we will need to join forces and efforts with other companies and institutions. Therefore we signed the Dutch Agreement on Sustainable Garment and Textile on July 4, 2016. This covenant brings us together with more than 90 partners, making it easier to tackle the problems in the textile industry. The covenant includes the Dutch government, unions, industry partners and social organisations such as Unicef and Solidaridad.

#### Textiles that make you feel good

All of our products are made for your comfort. We therefore believe it is especially important that our products feel soft against the skin and are free of harmful substances. All our fabrics are Oeko-Tex certified or meet the REACH (Registration, Evaluation and Authorisation of Chemicals) requirements. The Oeko-Tex and REACH systems ensure that the tested and certified textiles are free from harmful substances that pose a risk to health.

#### **Organic cotton**

An increasing part of our collection is made from GOTS certified cotton. The GOTS (Global Organic Textile Standard) certificate guarantees the use of organic cotton, while also ensuring it has been environmentally & socially responsibly produced. That gives us peace of mind!

GOTS sets requirements for factories concerning the use of harmful chemicals and the consumption of water and energy. GOTS also sets criteria for working conditions during production. These criteria are based on the standards of the International Labour Organisation, such as the right to trade union freedom, fair wages and the right to safe and healthy working conditions. Compliance with the GOTS requirements is checked by independent, accredited organisations.

For the home wear collection, ESSENZA has switched to sustainable fabrics such as LENZING $^{\text{TM}}$  ECOVERO $^{\text{TM}}$  and Modal. This brings us one step closer to a sustainable future.

#### **PVC-free Packaging**

ESSENZA is also making great strides in making the packaging more sustainable. We are well on our way to making all our packaging 100% PVC-free. The duvet covers from the new Spring/Summer '21 collection come in a fabric packaging with a paper band around it. The fabric bag can be reused for all kinds of purposes; great for the environment and great for the consumer! On our website we share some lovely ideas to help the customer to get started. To prevent the goods from being damaged during transport or in a warehouse, we still cover them with a recyclable, PVC-free plastic bag. Please remove this before presenting in store.

ESSENZA's premium and GOTS-certified duvet covers will be available in luxury FSC®-certified cardboard storage boxes from this season onwards. On the bottom of the box we tell all about the meaning and benefits of GOTS cotton.

#### **Sweet dreams**

Our mission is to allow everyone to sleep well. Not just the consumer, with the help of our wonderfully soft bedding and beautiful pyjamas, but also the people who work in our production chain. Sleeping well is only really possible if we produce in a sustainable way with consideration for people and the environment. We therefore work hard to create a fair and sustainable future.
