höfats

DESIGN

23 international design awards during the last three years: two figures that underline the success story of höfats – but who are we in real? As designers and engineers rolled into one, we have our very special way to conceive and develop products. To question the usual, combine purist forms and fascinating functionality, create things in a way that they give pleasure to their users. To invent products in a completely new way – products being stylish objects on the one hand, products being really good tools on the other hand. This is our passion and the DNA of höfats.

Above all, we are proud of having received the Bavarian National Award for Handicraft and Design in 2017.

STAINLESS STEEL

DURABLE QUALITY

It is approximately four to five times more expensive than normal steel, however resistant to corrosion. This special feature is due to a simple chemical reaction: through the chromium content of the steel and in combination with the oxygen in the air (or also in water), a very thin passive layer forms on its surface. This layer repels all aggressive substances. And even if the layer gets damaged under external influence, it forms anew within split seconds from the inherent steel matrix.

Stainless steel – an uncompromising material matching perfectly with the höfats quality demands.

A widespread misbelief has it that high-quality stainless steel is not magnetic. Until some years ago, this false rule of thumb was still deemed to be valid – but in the meantime, ferritic (i.e. magnetic) stainless steel of highest quality is available, disposing of the same excellent corrosion resistance as its austenitic predecessors.

CORTEN STEEL

LIVING PATINA

Unlike conventional steel, Corten steel forms a solid layer of patina. Whereas normal steel tends to gradually dissolve due to corrosion, Corten steel develops a barrier coat under the actual layer of rust which protects the component from furthermore corroding. The covering layer continuously forms anew and thus provides for a living and unique patina.

This weather-resistant steel can be classified an extremely ecological material. It has above-average durability, does not need varnishing and is completely recyclable. Corten steel is increasingly used in modern architecture façade engineering.

In an article about us, the Wirtschaftswoche wrote:

„FUNCTIONAL DESIGN ENCOUNTERS LOVE FOR DETAIL“

PACKAGING DESIGN

HIGH-QUALITY PRODUCTS DESERVE HIGH-QUALITY PACKAGING

Our love for details does not stop at the packaging design.

In order to present our products to the best of our ability, our packaging is marked by a clean design and four-colour printing. Atmospheric images as well as detailed descriptions clearly illustrate function, use and design of our products.

OUR PRODUCTS WITH YOUR LOGO

Our höfats products make the sparks fly – they fascinate due to puristic design, uncompromising workmanship and fascinating functionality – objects people are talking about, objects never being forgotten and wanting to be possessed. Ideal presents for your employees or clients.

By means of a laser engraving, your personal individualization will remain forever.

CONE

CONE

STAINLESS
STEEL

POWDER COATED

Continuous and efficient heat management

The distance between charcoal and food is minimal, the air supply is maximal = maximum heat.

The distance between charcoal and food is normal, the air supply is open = middle heat.

The distance between charcoal and food is maximal, the air supply is closed = minimum heat.

Ergonomic working
height of 85 cm

100 % Stainless steel

Fire basket function

CONE – is the worldwide first charcoal grill where you can adjust the heat directly. It thus translates the comfort of a gas grill to a charcoal grill – with real embers, real fire and a real atmosphere. The immediate, direct and intuitive heat regulation is made possible by the principle of combining the distance of the heat source to the grillables with the air supply. In case high heat is required, e.g. for sealing in the juices of the meat, the coal grid and thus the heat source can be simply lifted. To reduce heat, just lower the coal grid and thereby the air supply will automatically decrease.

CONE COVER – fits like a tailored suit. In order to protect CONE optimally, we have developed a covering hood. The waterproof material in combination with a high-tech zip protect form dirt and moisture. The hood covers CONE like a second skin and protects your grill even when it is sent to winter sleep in autumn. Due to the integrated carrying handles, CONE can be transported comfortably.

CONEBOARD – Shelf space is always useful by grilling – the cold drink is close at hand and the grillables wait right beside the bbq grid to be cooked. The board is attached with one move – as well as removed. The outstanding surface hardness makes bamboo one of the most durable timbers. Furthermore bamboo contains a natural antibacterium, making it perfect for the use as a cutting board.

CONE HEALTH GRID isn't just another cast iron grid. The dripping plate which has specially been designed for the extremely massive grid makes charcoal grilling as healthy as never before – it ensures that no fat or marinade can drop into the embers and that the grillables can nevertheless take on the wooden and smoky aroma of the charcoal. The two-piece cast iron grid has a dripping plate and can also be folded as the cooking grate of CONE.

CONE MOUNTING – the Mounting kit allows to mount CONE to all worktops. For all those, who are into an outdoor-kitchen, CONE-Mounting offers the perfect solution. It can be set in timber, concrete or even a flagstone, with CONE Mounting your creativity has no boundaries.

The table is not included in the purchased package.

- ☆ • direct heat regulation
- completely made of stainless steel
- also usable as design fireplace
- massive coal grid, Ø 44 cm, Ø 5 mm rods, polished stainless steel
- incl. warming rack (Ø 50 cm segment)
- lid thermometer
- incl. 2 hooks for hanging up grilling tools

Grill

Safe & clean break up

CUBE BLACK – Everyone knows the atmospheric charm of an open fire – but how to extinguish the fire subsequently, above all the upcoming wind and increasingly flying sparks? CUBE is simply turned around, the fire bowl remaining always in balance due to gravity, the fire is suppressed and extinguished. If no fire is burning inside CUBE, it can be used as a stool, a bench or a side table – a multi-purpose piece of outdoor furniture which surprises, enthuses and gives lasting pleasure due to its solid materiality.

- ☆ • fire basket, grill, stool
- pivoted ember box: the fire basket can thus be turned around while burning, the fire is suffocated
- safe and simple handling
- stainless steel, powder-coated
- optional accessories: coal grid, supporting board

Art-No 020102, EAN 4260447330214, HS Code 73211900

CUBE COVER – fits like a tailor-made suit. In order to protect CUBE perfectly for transport and stowage, we developed a covering hood. The waterproof material in combination with a high-tech zip shields it from dirt, moisture and scratches. The integrated carrying handles allow to transport CUBE comfortably.

- ☆ • custom-fit covering hood
- durable polyester-nylon fabric mixture
- water-resistant
- integrated carrying handles
- high-quality outdoor zip

📏 0,53 kg, gross 42x32x4,5 cm, 0,77 kg
Art-No 020401, EAN 4260447330290, HS Code 63079010

CUBE BOARD – By the use of the solid bamboo board, CUBE is easily transformed into a seat, a side table or a stool. Due to its extremely high surface hardness bamboo is one of the most durable timbers. To make even more long lasting the board is varnished. Only use after CUBE is totally cooled down.

- ☆ • turns the fire basket into a stool or side table
- massive bamboo wood, 30 mm thick, varnished in a UV-resistant manner
- can moreover be used as a serving tray

CUBE PLANCHA – the massive, enamelled cast iron plate turns CUBE into the Plancha grill. The plate can be adjusted in height – and thus is heat controllable – according to the raster of the notches. Ideal for prawns, shrimps, small calamari, sliced courgettes or a mix of vegetables. Apart from the smooth Plancha surface, the CUBE cast plate has a fluted side on which every steak gets its perfect branding. Two plates find place in CUBE, if necessary on different heights.

- ☆ • cast iron grid, enameled
- anti-stick coating for low-fat cooking
- two sides: smooth and fluted
- positionable on four different levels
- unique branding
- two planchas possible in one CUBE

📏 50x28x3 cm, gross 52x30x4 cm

Cooking grate is adjustable
in height and pivotable

Table
or height-adjustable hot plate

Option: Feet for a higher stand

TRIPLE – a tribute to open fireplaces – the most original form of heat and cosiness. Designed in edged clarity and made of massive corten steel, the fire bowl series TRIPLE cultivates the archaic heat source through simple and thrilling functionality.

With a few steps only, three identical segments – neverthe-less faceted in themselves – complete each other to form one solid, larger whole. Mobility and a resource-saving transport arise from its separability.

The adaptable cooking grate can be continuously adjusted in height and is rotatable. On its surface, a teapot, mulled wine or grillables find place. It can moreover be rotated inwards in order to cook a spicy stew.

TRIPLE GRID – the adaptable cooking grate can be continuously adjusted in height and is rotatable. A vertical pole serves as a guide along which the cooking grate can be vertically adjusted by 45 cm. Due to tilting, it is self-holding in any height.

TRIPLE TABLE – on the surface, a teapot, mulled wine or grillables find place. It can moreover be rotated inwards in order to cook a spicy stew.

TRIPLE POLE – if the TRIPLE TABLE shall not be mounted on the vertical guide pole of the cooking grate, the TRIPLE POLE serves as an alternative support.

TRIPLE 90 FEET – to bring TRIPLE 90 to a higher position, additional feet can be mounted. This is helpful in order to reach a more ergonomic grilling height or to protect the ground from too much heat. If the stands are not needed, they can be easily rotated inwards.

- ☆ • fireplace and grill
- variably height-adjustable and pivoted coal grid (optional accessory)
- work surface resp. height-adjustable hot plate (optional accessory)
- up to three supplementary rods can be mounted (TRIPLE 120 / 90)
- easy to disassemble, compact transport dimensions
- corten steel – developing a living, unique rust patina
- higher stand due to supplementary foot stands (optional accessory TRIPLE 90)

ELLIPSE

ELLIPSE

**CORTEN
STEEL**

DELIVERY
CONDITION BRIGHT

ELLIPSE – a sculptural fire bowl made of corten steel, surprises with unexpected functionality. If placed in the centre of attention, it can take a neutral position, however also turn towards a seating area respectively protect the flames from too much wind. Its stand provides for stability and is, at the same time, the mounting of the rounded bowl.

It moreover serves as an ash container: if the fire has nearly burnt down and shall be extinguished completely, the bowl can be taken with gloves and emptied into the stand. This is subsequently covered with the empty fire bowl in upside-down position, thus choking and extinguishing the residual fire.

- fire bowl with grilling facility
- extinguish in a safe and clean manner: embers can be emptied into the stand, the fire bowl serving as a closure
- pivoted fire bowl: neutral position and/or facing position
- corten steel – developing a living, unique rust patina
- optional accessories: coal grid, foot for a higher stand

110x57 cm, 13,2 kg | gross 113,5x58x29 cm
Art-No 060101 | EAN 4260447330528 | HS Code 73218900

ELLIPSE GRID – due to the massive Stainless Steel cooking grate, ELLIPSE also serves as a grill. The heat can be increased by placing more embers under the cooking grate respectively reduced by pushing the embers aside.

- grid with Ø 6 mm rods
- grid is simply mounted at the side, no further assembly necessary
- polished stainless steel
- heat regulation through shifting the embers

55x35 cm | gross 55x35x3 cm
Art-No 060301 | EAN 4260447330535 | HS Code 73219000

ELLIPSE FOOT – to bring ELLIPSE into a higher position, the foot can be mounted on an additional stand element. This is helpful in order to reach a more ergonomic grilling height or to protect the ground from too much heat. Up to two feet elements are expedient.

- additional foot for a higher stand
- fire bowl can thus be raised by 15 cm
- easy plug-in assembly
- maximum use of two foot elements only

Ø 35 cm, 20 cm height, 4,2 kg | gross 36x36x21,4 cm

GRAVITY CANDLE

GRAVITY CANDLE

Weather-protected

GRAVITY CANDLE – The höfats lantern delights with a cardanically suspended candle – no matter in which direction the lantern is twisted, the candle always remains perpendicular due to gravity. Wax splashes when blowing out a candle are a thing of the past – the GRAVITY CANDLE simply is turned around and extinguishes. Already when lighting the candle, the mechanism is extremely useful – slightly tilt the lantern to the side and light the candle without burning yourself or having to remove the glass tube.

Be it on the table, in hanging position (thanks to accessories) or on a rod – the GRAVITY CANDLE with its atmospheric candlelight turns your favourite spot into a magical place both indoors and outdoors. You can subsequently extinguish the GRAVITY CANDLE in any position by simply turning it around – and what is best: in reverse position, the GRAVITY CANDLE is perfectly protected against the weather for neither rain nor leaves can reach its interior.

- ☆ lantern with a special (cardanically) pivoted candle
- candle always remaining perpendicular due to gravity
- comfortable lighting
- safe and secure extinguishing of the flame
- protected against leaves, water and dust in reverse position
- optional accessories: suspension, foot stand, pole

📏 **GRAVITY CANDLE M90**
 Ø 8 cm, 13 cm height | gross Ø 10 cm, 15 cm height

📏 **GRAVITY CANDLE M60**
 Ø 8 cm, 10 cm height | gross Ø 10 cm, 12 cm height
 Art-No 080101 | EAN 4260447330559 | HS Code 7907000000

Versatile

GRAVITY CANDLE HANGER – thanks to the optional hanging solution, the GRAVITY CANDLE can be hung up as well. The assembly is incredibly simple: pull off the glass tube, plug on the ring together with the bracket and put on the glass tube again. Also in this position, the lantern can be easily turned around, extinguishes and is protected against the weather.

- ☆ lantern hanging solution
- incl. additional hanging rope (200 mm)
- hanging up also possible without rope, e.g. with a nail
- stainless steel, brushed

📏 Ø 8 cm, 17 cm height | gross 9,3 x 17,9 x 1,9 cm
 Art-No 080201 | EAN 4260447330597 | HS Code 7323930090

GRAVITY CANDLE POLE – by means of this pole, the GRAVITY CANDLE can be placed everywhere in the garden, even in a flowerpot. The GRAVITY CANDLE simply is placed on the bowl of the pole and can be easily turned around, extinguishes and is protected against the weather also in this position.

- ☆ secure stand
- massive stainless steel, brushed
- extensible due to foot stand to a free-standing lamp
- 6 elements: 4 x 30 cm poles + bowl + head (useable as earthing)

📏 120 cm height | gross 7,5 x 31,4 x 3,6 cm
 Art-No 080301 | EAN 4260447330603 | HS Code 7323930090

GRAVITY CANDLE FOOT – if the pole shall be free-standing, this massive base plate is mounted.

- ☆ foot stand for the GRAVITY CANDLE pole
- massive stainless steel, polished
- secure stand

📏 Ø 16 cm, 8 mm thickness | gross 17,2 x 19,2 cm
 Art-No 080501 | EAN 4260447330610 | HS Code 7323930090

Convenient lighting

Safe & clean break up

TOOLS

TOOLS

BBQ STARTER – höfats’ chimney starter can be used like a normal one, but also according to the höfats ignition principle. With the höfats ignition principle, the chimney starter does not have to be turned around, but only pulled upwards. There are no flying sparks or ashes. The höfats lighting solution is therefore much safer and comfortable compared to conventional chimney starters. BBQ STARTER includes 2,5 kg of the Kohlemanufaktur premium coal briquettes and also 4 fuel pastes – the best fuel in the BBQ market. This combination allows firing without producing any smoke and thus no harmful substances for humans and nature alike.

STEAKTOOLS – tools meeting the demands of a perfect piece of meat. Due to the sharp blade, the meat fibres are not torn apart, but precisely cut. The meat thus remains juicy and aromatic. Forged in one solid piece, the brushed, silk-matt Stainless Steel lies perfectly balanced in your hand. Non-corrosive, dishwasher-safe and dimensionally stable, the höfats steaktools are indestructible and guarantee long-standing joy in good meat. Delivered in a high-quality wooden box, höfats steaktools are the perfect present for every meat lover and for all appreciative of good food. By the way – the höfats steaktools also perform extremely well with pizza.

TONGS – Due to their asymmetric shape, the tongs lie ergonomically and safely in your hand. Moreover, the slightly tilted edges enable to cautiously handle sensitive grillables. Breakouts at the ends provide for grip and clear view – in a way, they make the tongs transparent at the center of events. The tongs are thus the perfect tool both for small shrimps and T-bone steaks. And if that wasn’t enough, the tongs place the cooking grid over the embers or lift the hot grid out of the grill. And as standing near the grill makes you thirsty, tongs can not only lift steaks and grids, but also crown caps. Cheers!

APRON – The ingenious höfats apron turns you and your grilling cooking skills into a successful “rope team”. The robust and easy-care material suits you down to the ground. Due to the continuous rope stretching from the neck over the sides to the hip, the apron can be adjusted to the body size with a flick of the wrist. Thus it fits perfectly and provides the maximum wearing comfort. The decently integrated pocket as well as the towel belt will thrill you. The belt is already adequately equipped with a high-quality towel made of 100% linen going along with the höfats apron.

GLOVES – The robust höfats grilling gloves made of pure, extremely dense suede and Kevlar are hand-sewn and made for eternity. The gloves are highly heat-resistant, thus turning grilling into an absolutely safe pleasure. Smooth leather and a perfect fit make the gloves extremely handy. You will fall in love with the impeccably sewn and thus highly comfortable inner lining.

JOHNNY CATCH – probably the world’s most functional and minimalist wall-mounted bottle opener. Johnny Catch has a thin, sleek design and fits to the wall or mounting surface discretely. Johnny Catch magnet or with a cup captures bottle caps before they have a chance to fall on the floor! Johnny Catch is 100% Stainless Steel and doesn’t need any screws or additional fixings. It is simply mounted on the wall by high-quality double-faced tape that adheres to many surfaces, even uneven ones! Johnny Catch is a must-have for everyone: from lemonade to craft beer lovers; whether it is placed in a bar or nightclub, domestic kitchen or man cave, just next to your barbecue or fridge, where there is a drink that needs uncapping, Johnny Catch will keep on catching... Cheers!

- ☆
- chimney starter for comfortable, secure and quick lighting
 - handle maximally becomes hand-warm
 - höfats lighting principle: emptying the embers without turning around
 - 2,5 kg capacity
 - incl. 2,5 kg barbecue grill briquettes
 - incl. 4 x 50 g fuel paste

- ☆
- extremely massive and perfectly balanced
 - forged from a single piece
 - extremely sharp blade with serrated edge
 - satin-finished and brushed stainless steel
 - high-quality packaging in a wooden box

- ☆
- ergonomically formed grilling tongs
 - perfect length
 - coal grid lifting function
 - edges at the ends provide for better grip and vista
 - massive material

- ☆
- BBQ apron with continuous rope
 - adjustable to every body size
 - easy-care, robust cotton-blended fabrics
 - incl. 100 % linen towel
 - high-quality mountaineering rope

- ☆
- extremely heat-resistant
 - 100 % natural leather with Kevlar
 - perfect wearing comfort, extreme grip
 - pleasant lining
 - 1 pair

- ☆
- wall mounted bottle opener with capturing device
 - captures approx. 60 caps
 - simple mounting without screws (instead with extra-strong adhesive tape, even sticking on rough surfaces)
 - bottle opener made of brushed stainless steel
 - catching device designed in “soft touch” style
- wall mounted bottle opener with magnet
 - very strong magnet, catches up to 20 caps
 - simple mounting without screws (instead with extra-strong adhesive tape, even sticking on rough surfaces)
 - brushed stainless steel
 - extremely flat on the wall

„FIRE STORIES“

With fire and passion, we create fascinating products made of uncompromising material – this is what höfats stands for – a fire story – our way to conceive and develop products, to create a unique identity through purist forms and fascinating function. Always bearing in mind perfection down to the very last detail in order to turn a strong idea into an authentic höfats product. A product made for incomparably beautiful moments – experience your very personal fire story now.
