

# LE KLINT NEWS

## WELCOME

We have again launched new lighting collections, that not only reflects what is currently happening around us in the design industry today...

... but keeps us ambitious when it comes to evolving LE KLINT, together with our staff, designers, customers and partners.

Quality – Design – Craftsmanship, with no compromise is our keywords – also for the future.

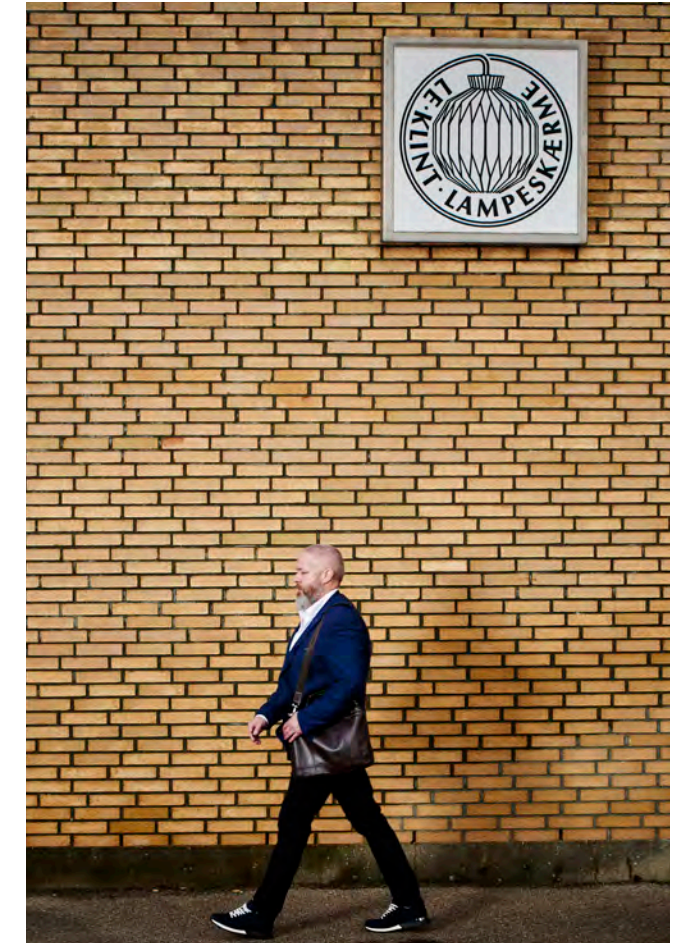

LE KLINT's reputation for sustainability and longevity, alongside your personal favourites are the keys to our success.

So, as you explore our collection within this small catalogue, go beyond its primary function and please feel free to enjoy and share its inspirational qualities.

**LE KLINT – made in Odense, Denmark**

Best regards

**Kim Weckstrøm Jensen**  
CEO

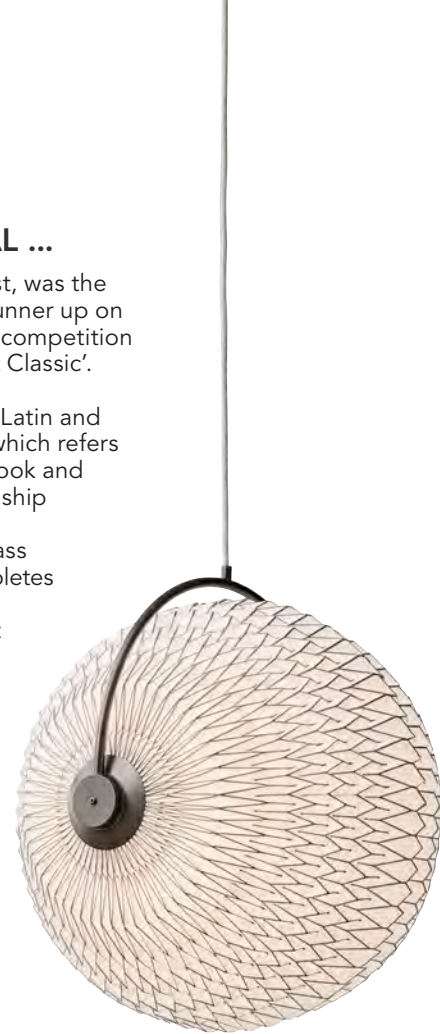

### CALEO ORIGINAL ...

designed by Rikke Frost, was the first in the series and runner up on the popular Danish TV competition show, 'Denmark's Next Classic'.

The name comes from Latin and means "to highlight", which refers to the lamps detailed look and emphasis on craftsmanship

CALEO combines a brass angular bar which completes the pleated shade, so that the pleating effect can be rotated to a 90 degree angle.

CALEO 2

CALEO 1

### THE CALEO SERIES

Taking inspiration from CALEO ORIGINAL, a whole new series was created to include small and medium-sized cone-shaped pendants.

## THE BOUQUET

This beautiful Bouquet design comes as chandeliers and single pendants.

The wooden cord adjuster allows you to have light at any height.

Model 130L5

Model 130M3

Model 130M7

Model 130L1

Model 130M1

Model 130XL3

## THE BOUQUET SERIES

The complete series has now been expanded to enlarge the sizes to medium, large and X-large. Designed by Sinja Svarrer Damkjær.

## Model 375

We have re-interpreted Esben Klint's beautiful pendant, model 107, into a brand new table lamp design. Light oak and brass details, together with a choice of lampshades, in LE KLINT original materials, gives us a series of table lamps in sizes medium, small and x-small.

## The Mushroom

MODEL 204

*This classic yet popular design, returns. The hand-pleated shade still stands proudly, atop its untreated light oak wooden wall mount.*

Vilhelm Wohlert (1920-2007), an architect and a professor, was trained at the Academy of Fine Arts in Copenhagen, where he was a student of Kaare Klint.

His most significant works include the renovation of the Ny Carlsberg Glyptotek, Louisiana, the Bochum museum, the Gustav Lübcke museum as well as a string of other constructions and restorations.

**The Mushroom**, was originally created in 1957 as a commissioned piece by Vilhelm Wohlert, for the reception area, of the honorary residence of professor and Nobel Prize winner Niels Bohr, on his return home to Denmark.

## CANDLELIGHT

New portable re-chargeable lantern,  
designed by Philip Bro Ludvigsen.

CANDLELIGHT brings that cosy 'hygge'  
environment, Denmark is so famous for.

CANDLELIGHT Black

CANDLELIGHT Light oak

... even modern vikings loves "hygge"

## LAMELLA 4

Design duo Jonah Takagi (American) and Hallgeir Homstvedt (Norwegian). LAMELLA pendant's, now includes a small version, LAMELLA 4.

This small design was inspired by the delicate pleats on the underside of mushroom caps. LAMELLA is elegantly finished in a choice of brass or aluminium details.

## CARRONADE High Table

Our new CARRONADE High Table in Black and Nordic colours, has been fashioned into a miniature version of the CARRONADE High floor lamp, which includes the distinctive slender tripod legs and tilting head.

CARRONADE High Table has the exact features as the series, where walnut or oak wood and brass or aluminium details supports a metal head that has a diffuser for optional use.

Designed by Markus Johansson

## CYLINDER

KLINT Design Team has created this beautiful pleated cylinder-shaped lamp, where pleats are held together inside a black stained oak base with steel details.

Cylinder comes as pendants and table lamps.

*Available February 2020*

Design: KLINT Design Team

## **MODEL 101 THE LANTERN**

Unique and fascinating - model 101 is the perfect combination of design and craftsmanship. The enclosed shape makes The Lantern perfect for hanging high because it shades the light source at all angles.

As a salute to one of his design idols, Kaare Klint, who designed the original lantern, CEO Kim Weckstrøm Jensen, re-designed this lamp into an XL-version, with a brush steel fitting, in 2007.

Today, the LE KLINT team has further expanded the collection, to include two more amazing sizes, XX-large and X-small.

## MODERN COLLECTION
