DESIGNED
IN BRITAIN

OSLO

The Oslo collection is inspired by the Scandinavian Design Movement from the 1950s, characterised by modernism, simplicity and functionality.

The range is pared-back, honest and produced to the highest standards of quality and craftsmanship. Crisp, matte white finishes mixed with solid wood bring warmth and tactility which further enhances the "Scandi" aesthetic.

La collection est un produit honnête avec beaucoup de qualité et de l'artisanat. Avec un mélange de bois et une finis facile, fraîche et blanche, nous avons apporté un style de confort et tactilité qui s'améliore encore à l'esthétique "Scandi"

Die Kollektion, die nach den höchsten Ansprüchen an Qualität und Handwerkskunst hergestellt wird, ist zurückgeschnitten und ehrlich. Die Ästhetik "Scandi" wird durch scharfe, mattweiße Oberfläche und Vollholz weiter verbessert. Diese Mischung aus mattweißen Oberflächen und Vollholz bringt Wärme und Fühlbarkeit.

URBAN LUXE

‘Urban Luxe’ is a premium collection designed to subtly incorporate nature into a stylish metropolitan world.

We have sourced sustainable natural substrates of the highest quality to give this range an organic and high-end feel. Textures, from wood to slate, with a clean finish help to give these items a pure and premium look. In ensuring that the natural element remains the star of the show, this new range delivers a way of instilling a tactile and elegant approach to interior design.

‘Urban Luxe’ est une marque haut de gamme, intégrant la nature dans un monde métropolitain. Nous avons déniché les meilleurs matériaux durables pour donner à cette collection une touche organique. Du bois jusqu’à l’ardoise en finition précis et esthétique, les textures créent un air pur et premium. Cette collection donne une approche plus tactile et chic à la décoration intérieure, tout en assurant que les matériaux naturels restent les vedettes du spectacle.

„Urban Luxe“ ist eine premium Kollektion, die entworfen wurde um die Natur ganz raffiniert in der modernen urbanen Welt zu verkörpern. Wir haben dabei ökologisch nachhaltige Trägerwerkstoffe ausgewählt um der edlen Kollektion eine natürliche Note zu geben. Die Oberflächenbeschaffenheit reicht von Holz bis Schiefer und wird bis zur Vollkommenheit sauber verarbeitet um den Produkten ein reines und erstklassiges Aussehen zu verleihen. Wir waren bei der Kollektion stets darauf erpicht, dass die natürliche Note im Vordergrund steht. Unser Inneneinrichtungssortiment wird durch diese neue taktile Produktreihe elegant ergänzt.

LONDON POP

This fun, new range from 'London Clock 1922' offers bags full of colour and contemporary designs that look as if they've been plucked straight out of London's Tate Modern.

Inspired by aspects of modern architecture, we have taken sleek shapes to present a series of contemporary yet affordable products. Bringing together minimalist designs with zests of vivid colour, 'London Pop' has become a fun and vibrant story; offering a playful way of bringing brightness into the modern home.

 Cette nouvelle collection offre une pléthore de couleur et de dessins contemporains comme ceux que l'on ne trouve généralement que dans le Tate Modern à Londres. Inspiré par les concepts d'architectures actuelles, nous avons utilisés un spectre éclatant en formes racées pour présenter des produits à la fois contemporains et abordables. En rassemblant le style minimaliste avec des couleurs vifs, 'London Pop' est une gamme dynamique qui permet d'ajouter des tons plus gai et chic dans une maison moderne.

 Diese witzige neue Produktreihe von 'London Clock 1922' bietet Unmengen an Farbe und zeitgenössischem Design. Die Stücke sehen aus als habe man sie direkt aus Londons Tate Modern Kunstgalerie entnommen. Nach dem Vorbild moderner Architektur haben wir schlanke Formen übernommen um zeitgemäße und zugleich erschwingliche Produkte zu entwerfen. Diese sind geprägt von minimalistischem Design und lebhaften Farben, die den Charakter von „London Pop“ ausmachen. Dabei wird auf verspielte Art und Weise Farbe in Ihr modernes Zuhause gebracht.

RETRO

Take yourself back to 1960's Britain; when Mary Quant was crafting unique styles and elegant fashions to remember.

Imagine the assault on your senses, encouraged by all the vibrant colours and care-free feel to life. No wonder there are few periods in modern British history that still hold as much influence on fashion today. When creating this range, the London Clock Co. used its knowledge of trends currently experiencing a revival. Taking elements from the 'Swinging 60's', our team have created clocks dedicated to some of recent history's great eras and their returning trends.

 Retournons aux années soixantes, une décennie de changement en Grande Bretagne; Mary Quant réinvente la mode féminine. Imaginez le réveil des sens, aux couleurs éclatantes et une vie insouciance. Peu d'époques influencent les styles d'aujourd'hui de la même façon. Le London Clock Cie. a conçu cette collection, en utilisant son expertise exemplaire des tendances de l'époque qui connaissent aujourd'hui un retour à la mode. En tenant compte des éléments des 'Swinging Sixties', notre équipe a créé une variété d'horloges en souvenir de ces époques glorieuses et de leurs modes rentrantes.

 Versetzen Sie sich zurück ins Großbritannien der 1960er Jahre, als Mary Quant elegante Mode entwarf. Stellen Sie sich den Angriff auf ihre Sinne vor, unterstützt von all den glänzenden Farben und das sorgenfreie Gefühl. Kein Wunder, dass es die Zeit ist, an die gerade heute wieder viele Stile beeinflusst. Als die 'London Clock Co.' diese Serie entwarf, verarbeitete sie darin die Trends, die heute ein interessantes Revival erleben. Die besten Einflüssen der 60er Jahre dienten dabei unserem Team als Grundlage für den Entwurf unserer Kollektion.

HERITAGE

Britain, like the London Clock Company, is renowned for its strong sense of tradition and proud history.

Naturally, our heritage makes up an important part of both our national identity and our company culture. Many castles and stately homes continue to dominate the British landscape and their interior décor is still coveted by visitors from far and wide. Drawing inspiration from such architectural icons, and by adding a slight modern twist, we have produced this collection of timeless classics, allowing our customers to possess their very own piece of British heritage.

 La Grande-Bretagne, tout comme le London Clock Cie., est connue pour une tradition forte et une histoire fière. Le patrimoine culturel britannique constitue une partie importante de notre identité nationale et de notre culture d'entreprise. De nombreux châteaux dominant toujours le panorama de notre pays avec leur décor imposant convoient des visiteurs des quatre coins du globe. En puisant l'inspiration dans ces icônes, et en ajoutant une touche de modernité, nous avons créé une collection de classiques intemporels, permettant ainsi à nos clients de posséder un morceau de notre patrimoine culturel.

 Großbritannien ist bekannt für Tradition und stolz auf seine Geschichte. So ist es auch bei unserem Unternehmen, der 'London Clock Company'. Die vielen alten Schlösser und Landhäuser entlang der Küsten bestimmen noch immer unser Landschaftsbild und die ursprüngliche Inneneinrichtung der Anwesen beeindruckt bis heute Besucher von Nah und Fern. Auf Grundlage dieser Einflüsse haben wir eine Reihe von Produkten entwickelt. Entstanden sind zeitlose Klassiker, die jedem Haus einen Hauch des traditionellen Großbritanniens vergangener Zeiten verleihen.

STATION

Station clocks have been keeping passengers on time for their train journeys throughout the UK ever since the creation of 'Railway Time' in London in 1840.

More than just functional, they have been incorporated into beautiful architecture which can still be found around Britain today. Here at the London Clock Company, we strive to maintain tradition and now offer

a comprehensive range using this iconic timepiece as inspiration. This collection will keep you on time for important journeys as well as becoming a traditional and stylish feature for your home.

Depuis 1840 et l'invention de 'Railway Time' à Londres, les horloges dans la gare aidaient les voyageurs à être à l'heure pour leurs voyages en train. Bien plus que fonctionnelles, ces horloges étaient incorporées à l'architecture élaborée que l'on trouve toujours autour de Grande-Bretagne. Au London Clock Cie., nous cherchons à maintenir cette tradition, ainsi nous présentons une gamme complète en utilisant ces appareils uniques comme inspiration. Nos horloges vous aideront à rester à l'heure pour vos voyages importants et deviendront des produits incontournables chez vous.

Bahnhofsuhren zeigen Passagieren seit Einführung der 'Railway Time', 1840 in London, überall im Vereinigten Königreich zuverlässig die Uhrzeit an. Über ihre präzise Funktion hinaus sind die Uhren auch für ihr traditionelles Design bekannt. Die 'London Clock Co.' hat es sich zum Ziel gesetzt, auch diese Tradition zu bewahren und Produkte in diesem Stil zu entwerfen. Von Uhren in Originalgröße bis hin zu kleineren Modellen werden Sie unsere stylischen Produkte nicht nur pünktlich halten sondern auch ihr Zuhause schmücken.

LONDON CLOCK

THE MOVEMENT

The London Clock Company has been working hard to develop new energy efficient clock movements. Our all new London Clock branded step movement, now quieter than ever, and our silent sweep movement are up to 20% more energy efficient than other leading movements, giving up to an extra 50 days battery life. Our new movements are not only our most efficient yet but are also better for the environment as we look to considerably reduce the amount of batteries sent to landfill each year.

London Clock, Le mouvement

Le London Clock Cie. a travaillé dur pour développer des mouvements à faible consommation d'énergie. Nous avons créé un mouvement 'step' et un mouvement 'sweep', tous les deux sont plus silencieux que jamais et affichent jusqu'à 20% d'économie d'énergie ce qui permet de gagner jusqu'à 50 jours d'autonomie supplémentaires. Grâce à leur autonomie nos horloges sont plus écologiques, car plus d'autonomie = moins de piles aux décharges.

London Clock, Der Federantrieb

Die London Clock Co. hat intensiv an der Entwicklung des neuen energiesparenden Federantriebs gearbeitet. Ergebnis dieser Arbeit sind unsere neuesten Federantriebe 'step' und 'sweep'. Beide sind leiser denn jemals zuvor und bis zu 20% energiesparender als andere Federantriebe, was die Batterielebensdauer um etwa 50 Tage verlängert. Unsere neuen Federantriebe sind nicht nur energiesparend, sondern auch besser für die Umwelt, da weniger Batterien entsorgt werden müssen.
