MOOMIN

PIPPi
LONGSTOCKING

Emil
in Lönneberga

Story of

Functionality is a priority - fun follows close by.

We strive for our designs to be used, looked at and talked about.

We were established as a glass factory in 1974 and have comprehensively evolved into a modern design house.

By guarding and developing the know-how that we acquired from decades of production experience, we endeavor to learn and master more materials. In addition to our brand collection, we create license products, starred by some of the most well-known and beloved fairytale characters, which take you one step closer to the magical world of stories and adventures.

Fundamentally our roots lie in the Nordic countryside and in the Finnish folklore, where everything has a story, and nothing is impossible.

NORDIC

The Northern nature with its vast wilderness, deep forests and animal inhabitants has inspired the Nordic series. Following a clean Scandinavian style, the graphic and simplistic style of the series is a modern illustration of a close bond with nature.

- Kata Nowak-Kiminki, designer

MAKIA × muurla

Through the rough seas

We have stood long enough in cold rain, to favour simple and functional design that focuses on materials respecting the harsh Northern climate.

Makia was born in the harbour of Helsinki out of these principles – to stand the test of time and to accompany you for years to come.

MAKIA X MUURLA

Collaboration with Finnish clothing company Makia.

MOOMIN
by muurla

originals

Muurla's Moomin Originals series is a celebration of Tove Jansson's most famous Moomin illustrations, that have become the crown jewels and most well-known designs for the modern Moomin enthusiasts.

For this pristine series, we have put our time and effort into creating forms and shapes that highlight the original and eminent drawings.

Simple, yet modern shapes are the combining elements that we see fit for Tove Jansson's masterpieces.

#PIPIOFTODAY

Save the
Children

PIPPI OF TODAY - A CAMPAIGN FOR GIRLS ON THE MOVE

THE FIRST BOOK ABOUT PIPPI WAS RELEASED IN 1945, RIGHT AFTER THE END OF WORLD WAR II WITH MILLIONS OF CHILDREN AFFECTED. TODAY 68,5 MILLION PEOPLE ARE FORCIBLY DISPLACED -MORE THAN DURING WORLD WAR II. MORE THAN HALF OF THE WORLD'S' REFUGEES ARE CHILDREN. GIRLS ARE ESPECIALLY VULNERABLE IN REFUGEE SITUATIONS. GIRLS ON THE MOVE, REFUGEE GIRLS ARE THE PIPPI OF TODAY. EVERY GIRL THAT IS ON THE MOVE IS STRONG. AND EACH OF THEM DESERVES THE CHANCE TO TAKE CHARGE OF THEIR OWN STORY. BY JOINING FORCES WITH THE STRONGEST, MOST FAMOUS GIRL IN THE WORLD THEY CAN BE EMPOWERED TO DO IT. THE CAMPAIGN WILL SUPPORT THE PIPPI OF TODAY AND SAVE THE CHILDREN'S WORK FOR "GIRLS ON THE MOVE". GIRLS ON THE MOVE SUPPORTS GIRLS THAT HAVE BEEN THROUGH TRAUMA - ENABLING THEM TO GAIN CONFIDENCE, CREATING POSSIBILITIES TO SHARE THEIR STORIES AND PROVIDING OPPORTUNITIES TO CHANGE THEIR LIVES. TO GO FROM THE PAST, TO THE NOW AND TO OWN THEIR FUTURE.

MUURLA PRODUCT INFORMATION

ENAMEL | Handmade in Europe

Our enamel mugs feature a soft rim technique, where the mug's sharp rim has been fully bent inwards to create a comfortable surface to drink from. Muurla enamelware consists of a carbon steel core, which is double coated with high quality enamel. All of our enamel products are dishwasher safe. Cooking items are suitable for all stoves – from induction to open fire.

GLASS

Muurla's glass products are produced out of two different types of glass, depending on the needed functions and intended usage. We use borosilicate glass for items that should be light in weight, yet durable and also resist high temperatures like hot drinks or the heat of candle light.

Products like vases and glass plates are made of lead-free soda lime glass. This ancient, traditional material can be worked in numerous ways to form different sorts of glass items. Most importantly, we focus on having the best soda-lime batches available together with highly capable glass-workers.

STORAGE BASKET

Muurla's multifunctional Storage Basket is made out of recycled PET plastic bottles with a needling technique. The felt-like material is light in weight yet durable. The Basket can be used for numerous purposes both indoors and outdoors.

PLYWOOD | Handmade in Finland

Our plywood products – trays and serving boards – are handmade in a co-owned factory located in eastern Finland. All wood that is used is Finnish birch – a sustainable choice. Plywood products are coated with a layer of matt melamine for food safety and easy cleaning. Edges are treated with varnish, which makes products dishwasher safe. In addition to producing our own designs, we offer you the chance to let your own design shine on custom-made plywood products.

CANDLES | Handmade in Europe

Muurla's paraffin candles are formed concave, which allows the heart of the candle to burn straight down without melting the outer surface. The decorations on the candles are printed on a special paper, which is then placed by hand around the candle. After that, the candle is dipped to paraffin to create a layer that holds the pattern in place. In the final product, the candle light glows softly through the whole pattern, creating a lanternlike appearance.

SILICONE LIDS

Practical silicone lids prevent spills and enable turning enamelware to take-away items. Lids to enamel bowls allow easy and hygienic storing. Made from dishwasher and freezer safe silicone.
