ABOUT

VIVA Scandinavia is passionately dedicated to the experience of tea

We believe in the power of tea to improve the lives of our friends, families, and customers. Supported by thousands of years of tradition, tea soothes the spirit, tantalizes taste buds, invigorates the body, and draws us together. A cup of tea makes everything better. We've created a range of timeless collections to enhance the joys of tea. Adhering to the Nordic design principle of form following function, we use premium quality glass, cork, silicone and porcelain to create elegant products that will delight casual and connoisseur tea drinker alike.

Better for Tea

No other beverage competes with tea's renowned health benefits. VIVA's collection maximizes infusion for better taste, aroma, colour, and ultimate enjoyment. Using innovative filters, double-walled glass and non-drip pouring mechanisms, we make brewing easier, enjoyable, and more tasteful than ever.

Better for Design

Sitting down to read your favourite food blog? Taking a moment to recover from an intense day of work? Rehydrating after a yoga class? Tea drinkers have always made a statement with their lifestyle. Our collections make a statement too: Elegant. Modern. Balanced. Clever. Creative, and Functional. Simply put, VIVA's exceptional range of tea products are steeped in good taste.

Better for Quality

Each product is carefully hand-made by skilled artisans, and guaranteed. Using carefully selected materials, our tea-ware reaches you in beautiful condition, and stays that way for years. From our design studios in Copenhagen to major department stores, boutique retailers to even the smallest neighbourhood tea shop, VIVA creates aspirational tea-ware with outstanding value. Spelling Global with a T. As consumers recognize the increasing hazards of overly-cafienated and overly sweetened beverages, tea's age-old benefits and widespread availability is more important than ever. Viva Scandinavia has offices and representatives around the world, dedicated to improving the joy of every cup of tea.
